

ENERGIZE **YOUR LAND** **PORTFOLIO**

IF YOU HAVE

- 700+ acres of land (for solar)
 - 7,000+ acres (for wind)
- within 5 miles of a transmission line, you could produce substantial, dependable income for 25+ years by hosting a solar or wind farm.

Let's Meet at the Land Investment Expo
in Des Moines this January!

Scout is a well-funded developer & operator of wind and solar, managing 20+ projects across the U.S. We build and manage each project, take care of every detail, and go the extra mile to respect the land and its owners.
